PROFESSIONAL EXPERIENCE

QUEST DIAGNOSTICS – San Juan Capistrano, California

Clinical Development Research Associate 06/2016 to Present

Work together with the Clinical Development team to prepare documents and specimens for Research & Development use. Complete routine tasks for ongoing projects and help to develop protocols for new projects. Perform routine equipment maintenance and document problems and solutions as necessary. Maintain documentation of research projects provided by Clinical Development project specialists.

Key Contributions:

- Developed and implemented policy and training procedure documents for Clinical Development.
- Routinely recognized for working as a proficient and effective team member and maintaining high standards of quality.

CVS PHARMACY – Inglewood, California

Pharmacy Technician, 2/2015 to 06/2016

Demonstrate a broad technical and practical knowledge of all pharmacy operations, including managing medications, insurance billing/adjudication, medication information, and providing customer/patient care and education in a dynamic retail environment. Complete miscellaneous routine administrative tasks, such as prescription information/insurance data entry and cash register operation; organize/file inventory orders, Medicare forms, and special orders. Manage paperwork for first-fill prescription counseling. Follow up with patients and doctors to ensure proper use of prescribed medications.

Key Contributions:

- Routinely recognized for providing excellent customer service and fostering customer retention.
- In less than a year in this position, quickly learned complex inventory management and pharmacy operations.
